

Additional Control Measures

# Online Survey Results

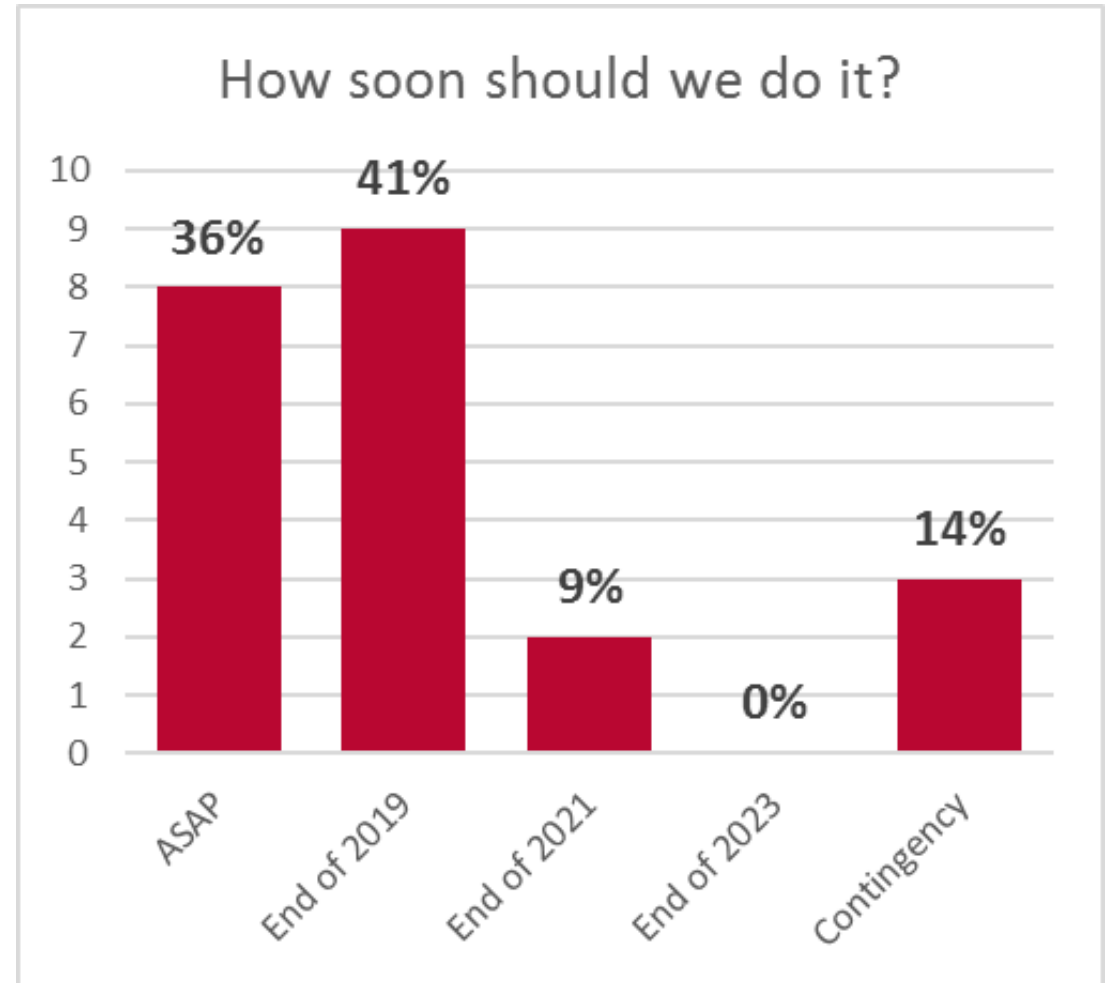

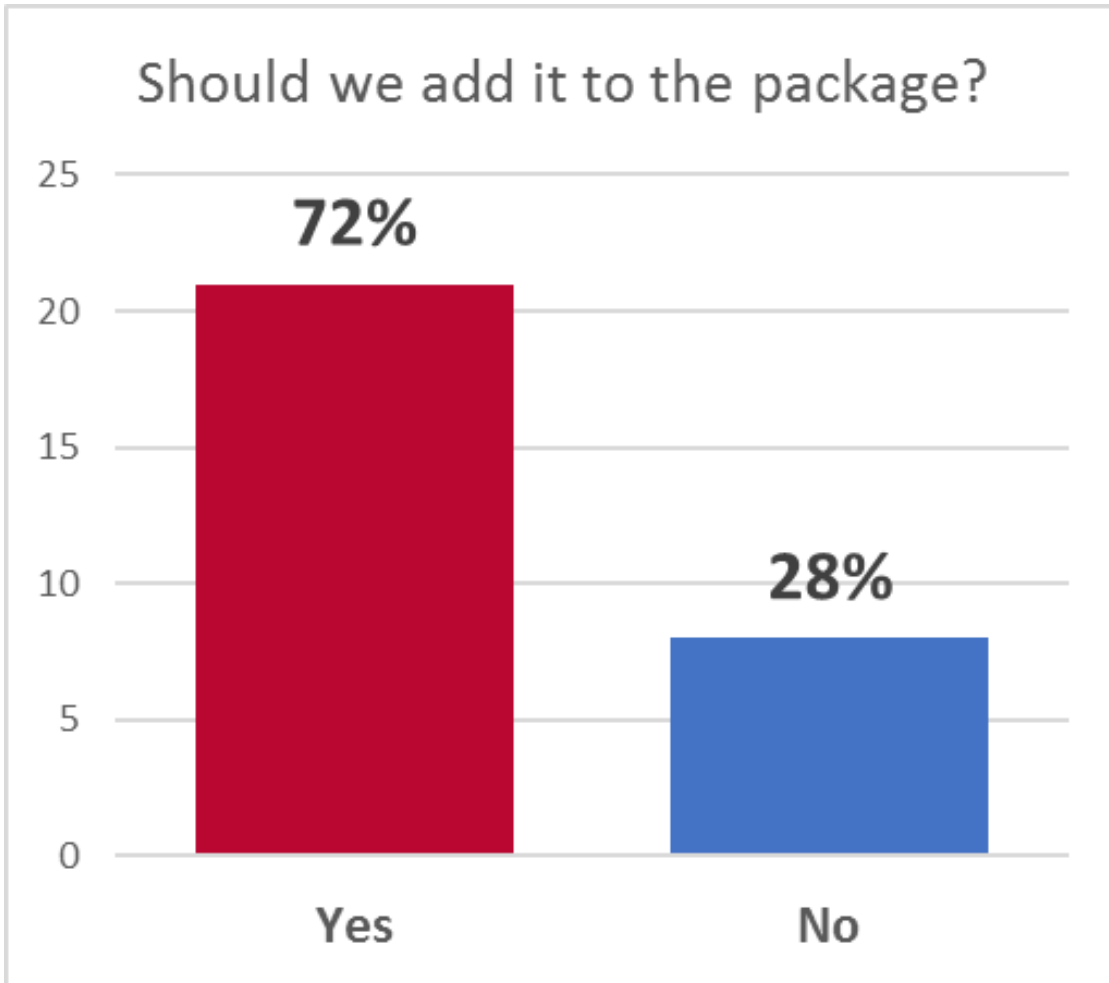

# Require permanent installed alternative heating method in rental units, with exemption for current NOASH permit holders? (Measure 24)

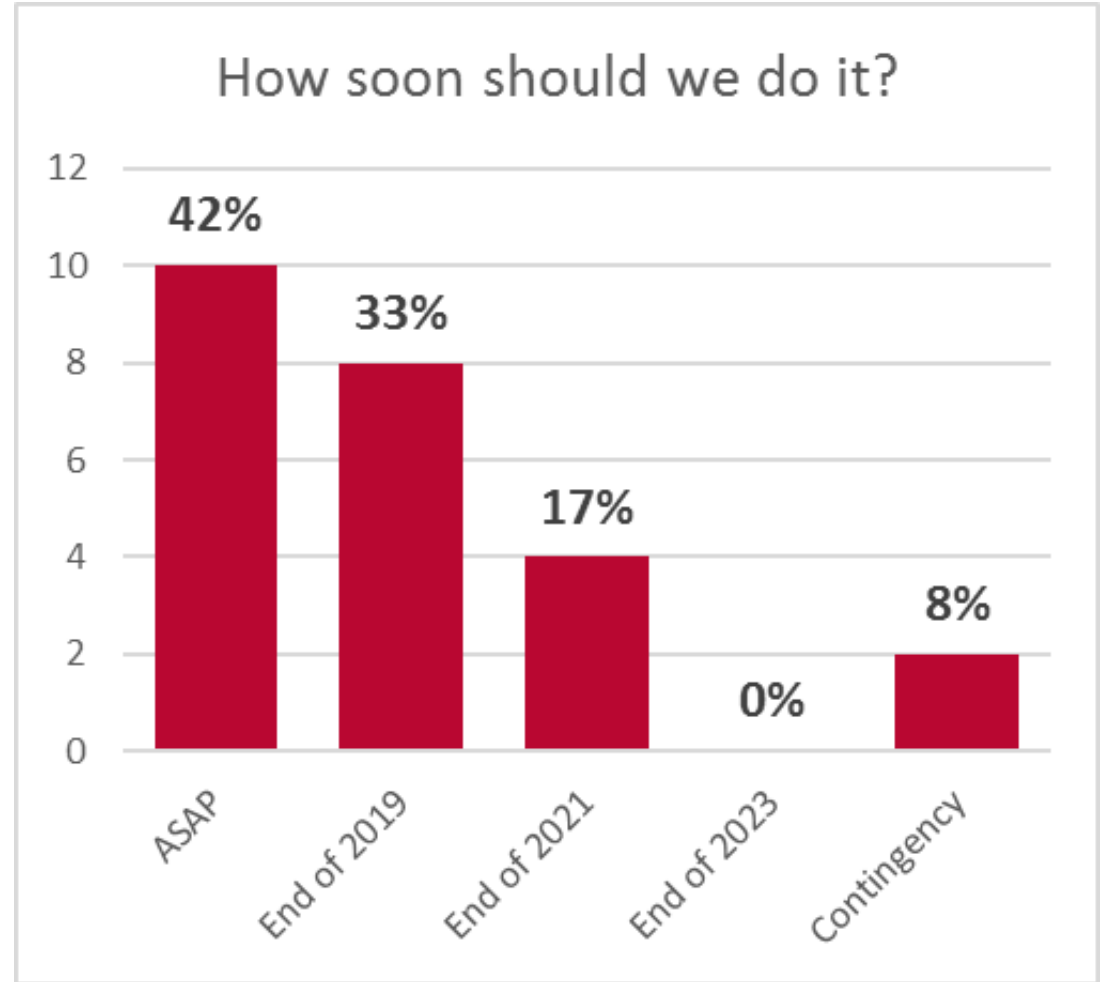

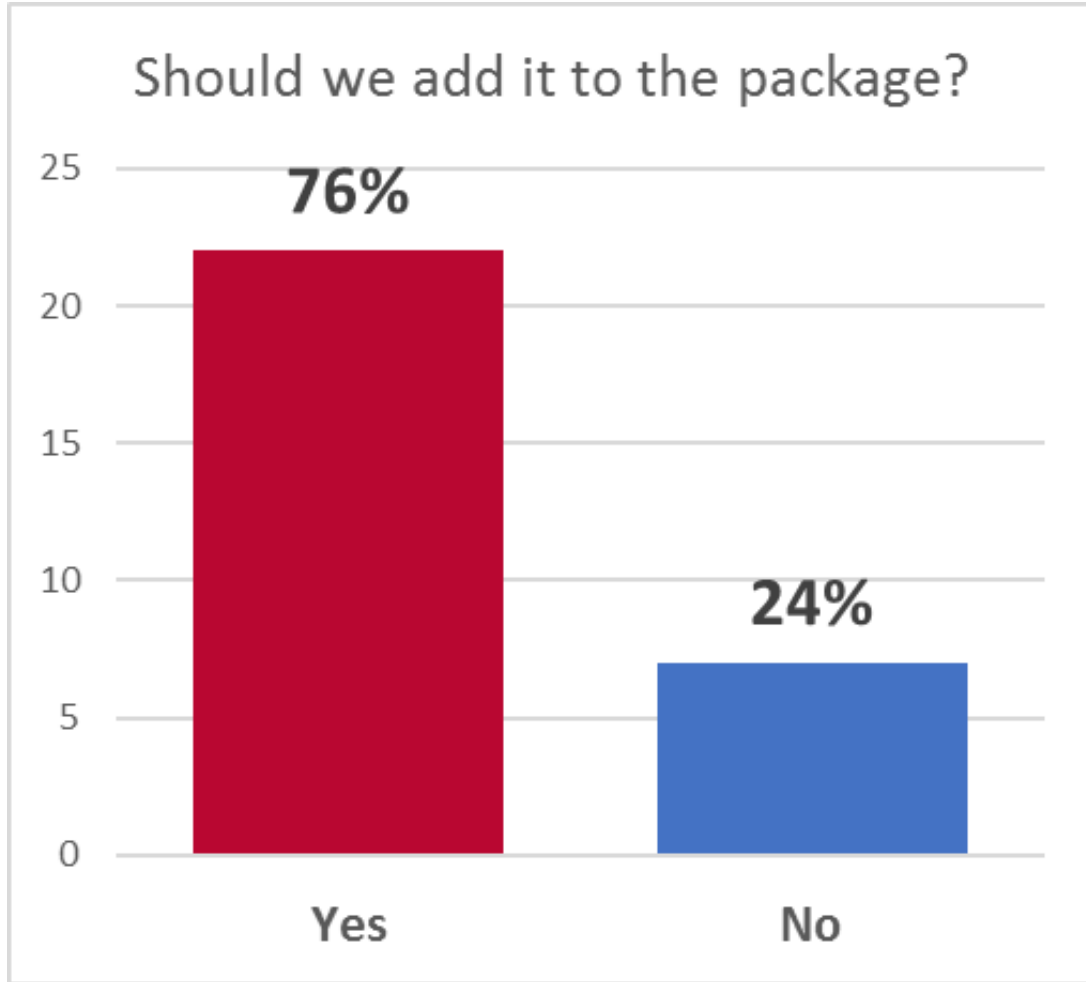

# Require sale of only dry wood when it is commercially available, with exemption for 8-foot rounds? (Measure 31, Public 5)

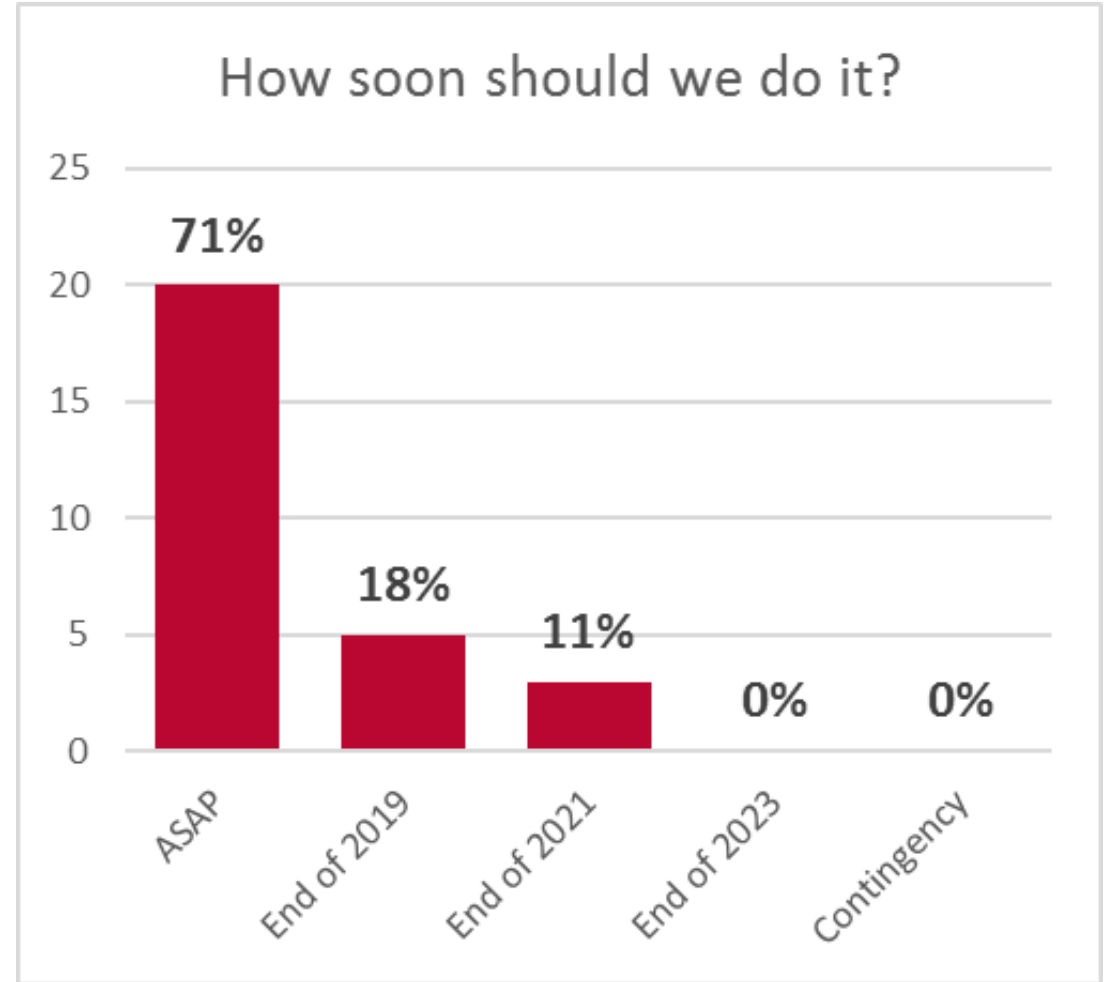

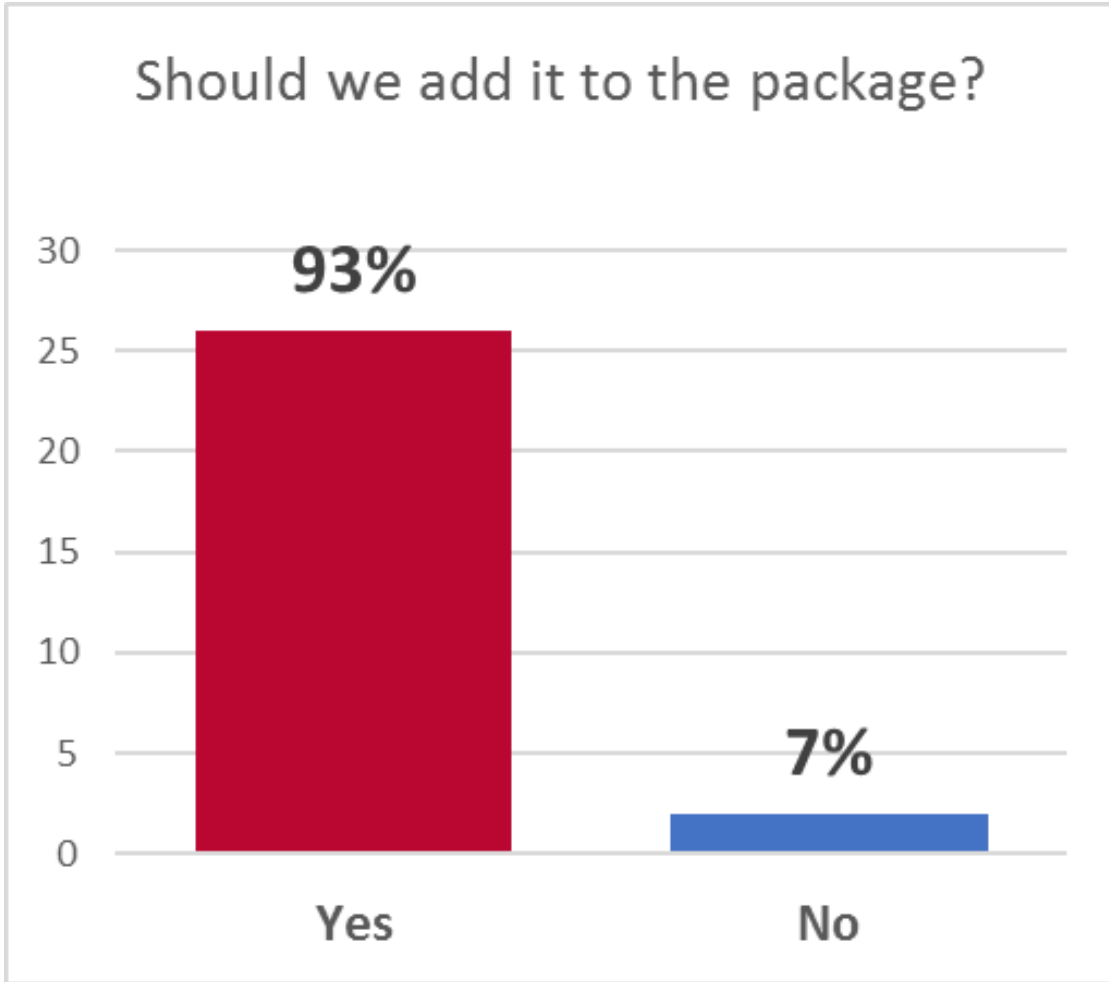

# Require all Solid Fuel Burning Appliances to be properly sized and professionally installed, with exemption for existing devices? (Public 8)

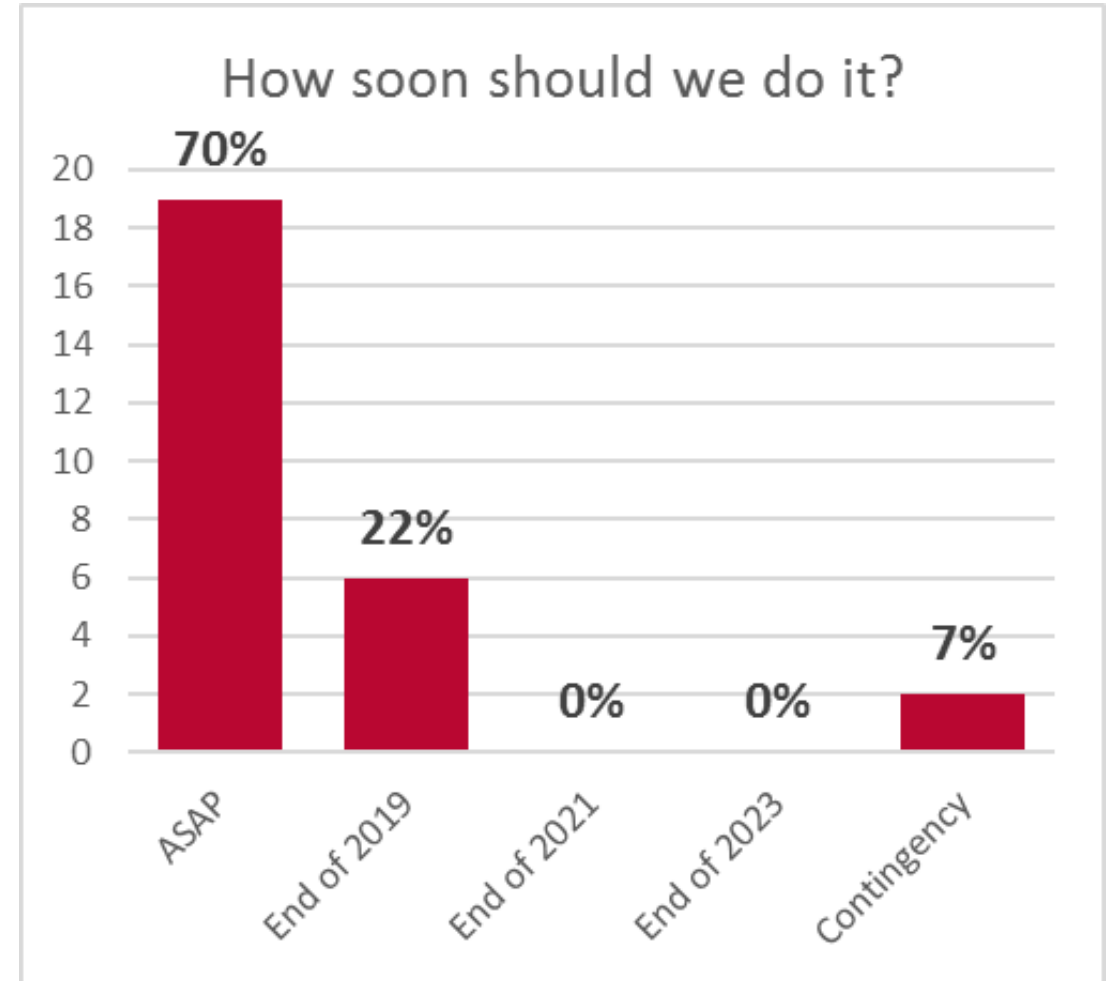

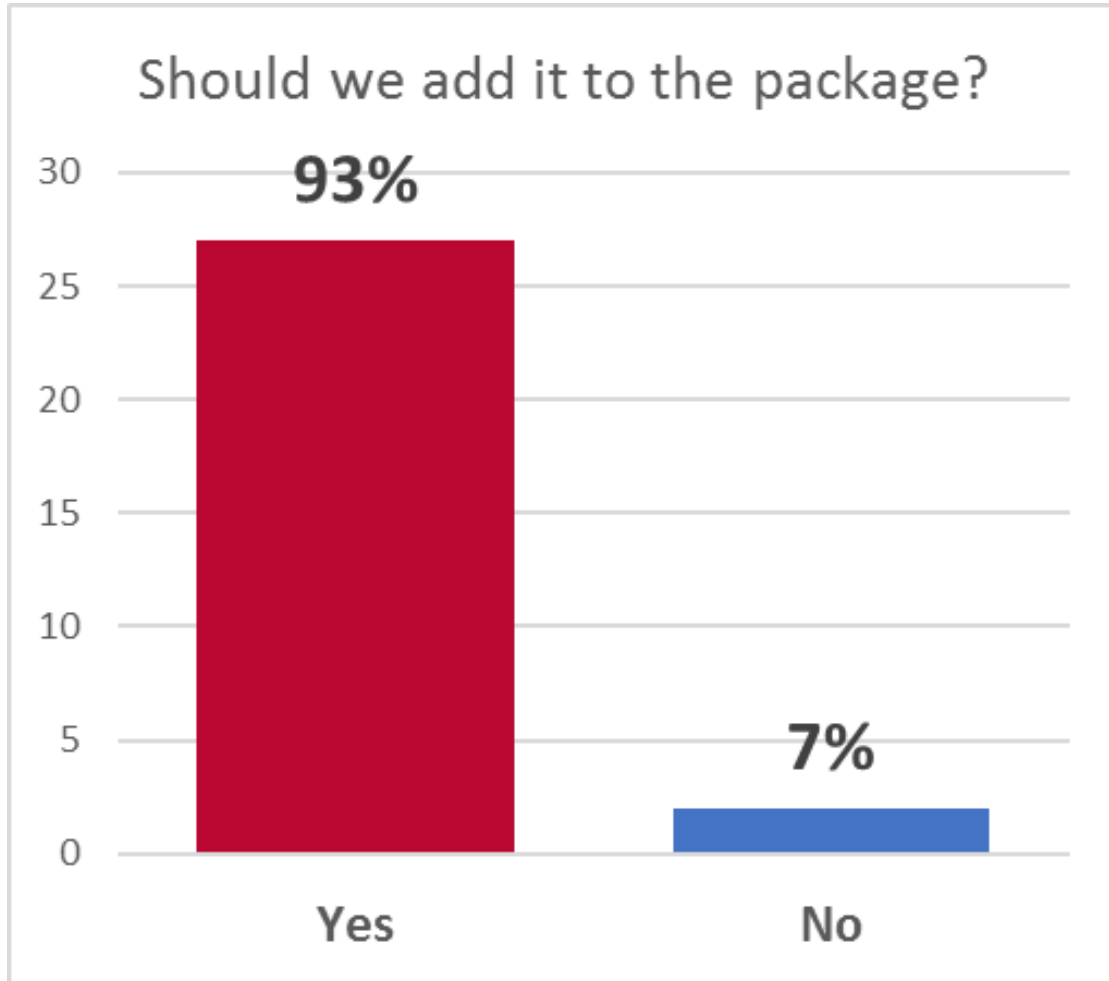

# Require all aftermarket controls on Solid Fuel Burning Appliances to be professionally installed, with exemption for existing devices? (Public 8)

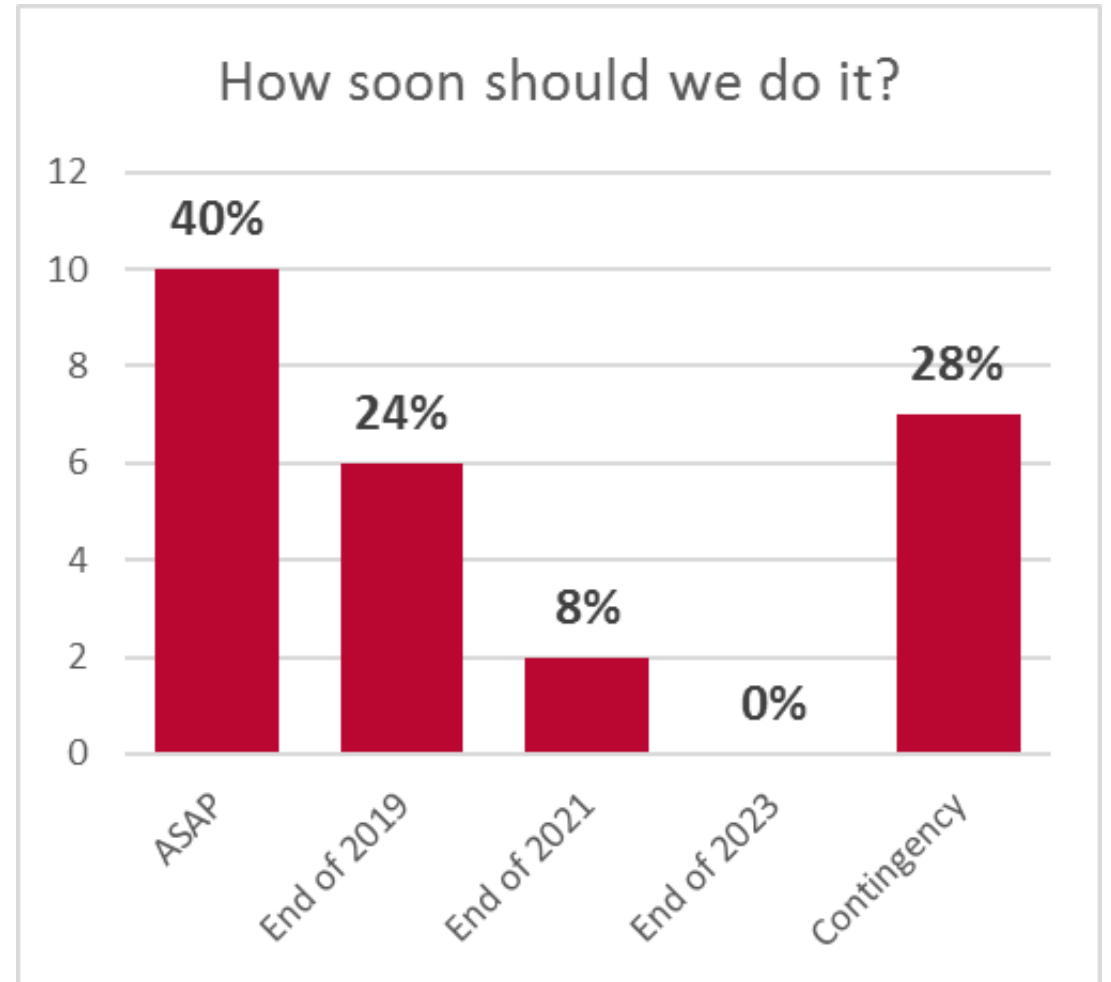

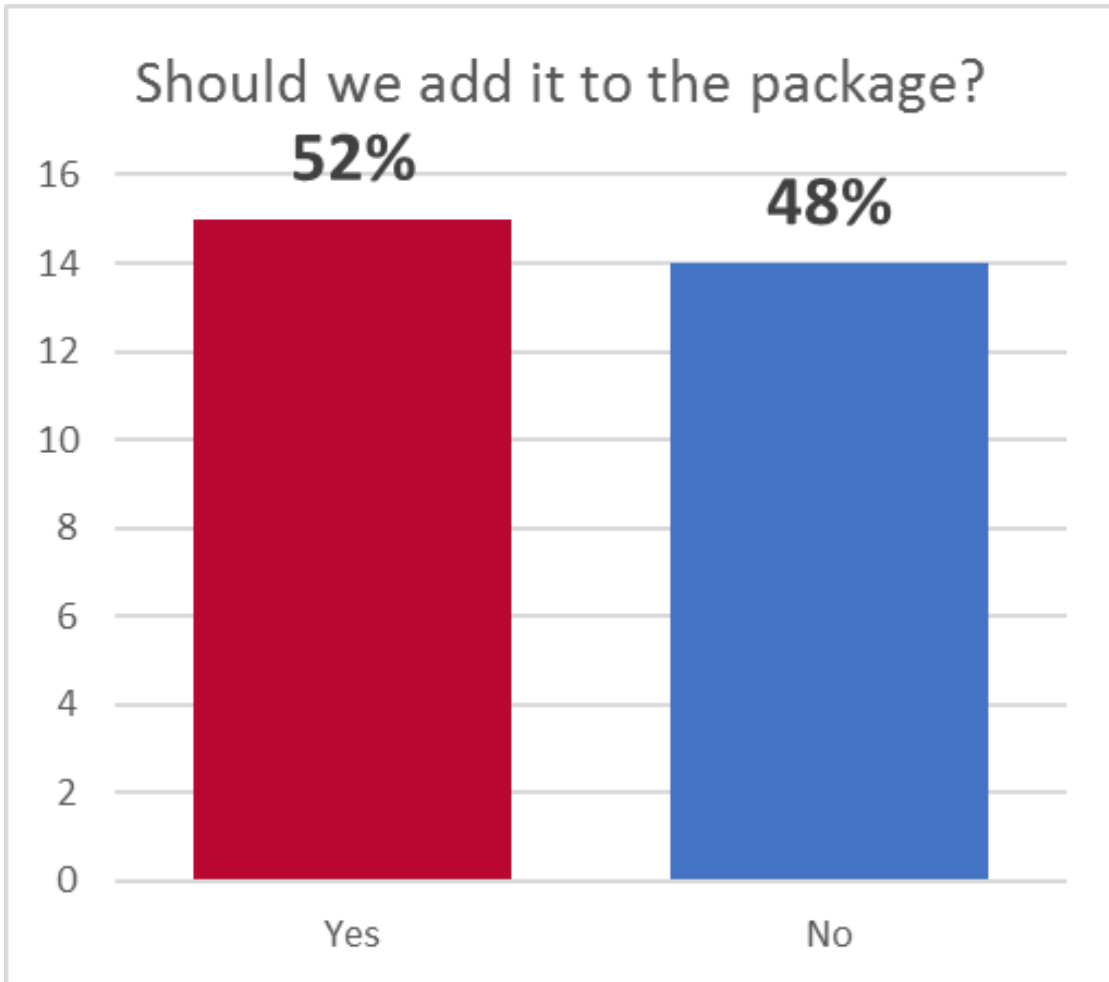

# Only install a device that meets state emission standards whenever a fireplace or chimney is remodeled? (Measure 10)

# Prohibit sales of Solid Fuel Burning Appliances that don't meet state standards? (Public 10)

**Make it mandatory for Wood Stove Change Out Program participants with a non-compliant Solid Fuel Burning Appliance to replace it with a heating device that does not burn solid fuel. Compliant SFBAs could be replaced with non-Solid Fuel devices on a voluntary basis.**

# Allow only NOASH households to burn during curtailment periods? (Measure 29)
